EDUCATION

McGill University

Montreal, QC

Bachelor of Arts, Computer Science & Economics · Expected December 2026

Relevant coursework: Econometrics, Probability, Computation, Data Structures, Economic Statistics, Financial Instruments and Institutions.

PROJECTS

FragMance (live)

iOS App Store

React Native · Expo · TypeScript · Node.js · PostgreSQL

- Built and shipped a fragrance discovery and collection app with a 4-stage barcode scanning pipeline over a database of 70,000+ fragrances with full note breakdowns.
- Delivered a digital wardrobe, scent-of-the-day logging, and social feed, plus B2B analytics endpoints designed for fragrance houses.

EconSight — Canadian Economic Intelligence Platform (live)

Python · FastAPI · XGBoost · PostgreSQL · React

- Ingested 9 macro indicators from Statistics Canada and the Bank of Canada into a PostgreSQL medallion warehouse, driving VAR and XGBoost forecasts with Monte Carlo scenario bands.
- Surfaced a composite economic health score, RAG natural-language Q&A, and one-click PDF reports.

Personalized Newspaper — AI-Curated Daily Broadsheet (live)

Next.js · TypeScript · PostgreSQL · Drizzle · Claude API

- Built a scheduled pipeline polling Finnhub, RSS feeds, and Hacker News, scoring every article for relevance and clickbait with the Claude API.
- Rendered a three-column broadsheet, deployed as a single Railway service.

AuditAP — AP Risk & Anomaly Detection (live)

Python · SQL · PostgreSQL · LLMs

- Integrated with QuickBooks and built 90-day rolling statistical baselines to flag duplicate invoices, vendor price creep, and zombie subscriptions.
- Added an LLM audit of invoice line-item descriptions to catch anomalies rule-based checks miss.

Quantitative Portfolio Optimization & Risk Engine

Python · Pandas · NumPy

- Computed a Modern Portfolio Theory max-Sharpe portfolio via 10,000+ Monte Carlo simulations, using Cholesky decomposition with covariance regularization for multivariate return simulation.
- Reported Parametric VaR and Expected Shortfall at the 95% and 99% confidence levels.

PROFESSIONAL EXPERIENCE

Duronm Textile Company — Invoicing & Collections Intern

Izmir, Turkey · Jun–Aug 2023

- Analyzed 200+ accounts-receivable transactions for payment trends, delays, and cash-flow risk.
- Built weekly Excel reports tracking overdue balances, collection performance, and working-capital indicators for management.
- Reconciled invoicing and payment records to improve data accuracy and flagged high-risk accounts for collection prioritization.

Advanced Information Modeling Inc — IT Intern

St. Petersburg, FL (Remote) · Jun–Aug 2024

- Monitored system availability and performance logs, documenting recurring technical issues for the team.
- Updated internal documentation and standard operating procedures to keep support references current.
- Recommended process improvements to streamline recurring support workflows.

ADDITIONAL INFORMATION

Certifications: FMVA (Financial Modeling & Valuation Analyst); CFA Level 1 Candidate

Skills: Python, TypeScript, SQL (PostgreSQL), React / React Native, Node.js, FastAPI, Next.js, Pandas / NumPy, Power BI, Excel; Risk metrics (VaR, Expected Shortfall), Statistical analysis

Languages: English (native), Turkish (native), French (intermediate)

Activities: McGill Consulting Association; Economics Student Association
